

Spitzenberger & Spies EICC statement

As a manufacturer of gold, tantalum and tin containing products we are obliged to produce in a socially responsible way.

The supply policy of Spitzenberger & Spies is to refrain from purchasing from any known conflict sources and we are taking care about our suppliers doing this in the same way. Therefore we have notified all our suppliers about our policy on conflict minerals and we have asked them to provide us with a confirming documentation of their conflict-free status.

Tracing the source of these minerals — from mine through smelter to final product — is a challenge that we cannot address alone.

We are evaluating methods and documentation software to fulfill not only the necessities of the US Dodd-Frank Wall Street Reform and Consumer Protection Act, we also want to integrate the future EU regulation act which is expected to be released in the beginning of 2014.
